

Exclusives Games Compos Rumours Gossip Opinion Facts

# NEWS

## WIPEOUT **Wipe Out?**

• Saturn • Early 1996 •

Wipeout is Saturn bound along with the rest of Sony Interactive's back catalogue. Not as good as Sega Rally though.

Some are to convert a whole raft of their top Playstation games to the Saturn. It has been announced. Top of the list is the Playstation smash *Wipeout*, an excellent 3D 'driving' game, which is anticipated for a March release.

This follows news that other publishers are readying their initial Playstation releases for the Saturn.

Wipeout cleans up. Hat, the caption of the year, surely.

Namco have released their top beat-em-up *Tashinden* for the Saturn, reviewed this issue.

Many titles are already receiving multi-format next gen releases, with *Spat Goes To Hollywood* and *Earthworm Jim* heading the Virgin list, and *Alien Trilogy*, (exclusively previewed next month in *Sega Power*), from Acclaim.

## Alien **Trilogy**

• Saturn • Early 1996 •

Everybody loves Aliens, from the loveable Hoover-attachment that was ET to the cuddly, 'bring it home to meet your parents' cuteness of Alien. Sorry, not right. I'd eat them all and then chew on yer dog.

*Alien Trilogy* from Acclaim is developing nicely, and although it's now looking to be out sometime in May, it should still cause more than a few ripples on its launch. Oh yes, and WE'VE GOT THE EXCLUSIVE FIRST LOOK, in a month or so. Thank you. And despite the sour-grape stuff you might have read in some arse mag elsewhere, we'll be printing only Saturn pictures in our feature. The grabs here are Playstation ones but it'll give you a good idea of what to expect.

Alien Trilogy on the Saturn. Cool Spat is above. Cool Spat isn't an alien, he's a spot. Whether he's cool or not is very debatable.
